

Health Check

Azure

The migration to Cloud Computing can deliver many benefits to your organisation. It is proving to be a better way to run a business. Worldwide end-user spending on public cloud services is forecast to reach nearly \$600 billion in 2023, growing over 20% each year over the last number of years.

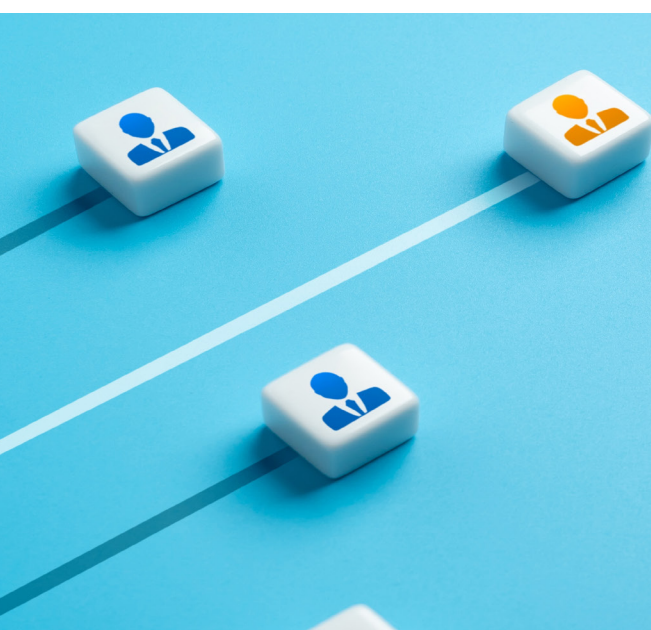

Why a Health Check?

-  To **bolster defences** and help avoid a security breach.
-  To provide more **actionable intelligence** via improved reporting.
-  To help **improve user experience**.
-  To get a **better return on investment**.
-  To **stay up-to-date** on the latest App/Platform releases.
-  To provide a **solid foundation** to help you **build out new solutions**.
-  To help you **evolve your Microsoft Azure cloud environment** and **avoid stagnancy**.
-  To **better meet demands** of your business.

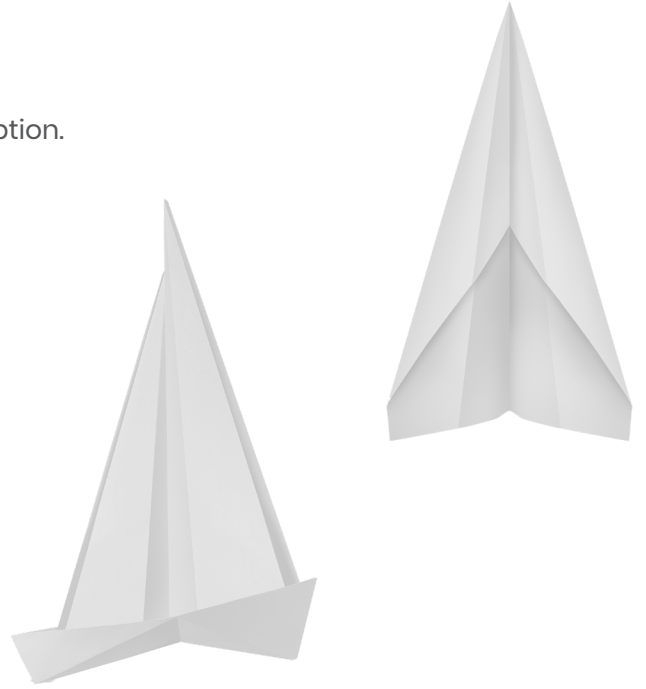

You'll come away with:

- **Recommendations for improvements** based on our review.
- **Feedback call** outlining actionable insights to make better use of your Microsoft Azure cloud environment.
- A **digital roadmap** proposing a path to roll out changes /enhancements and future digital transformation projects.

How to get started:

1. Initial call to help us tailor the Health Check to your specific Microsoft Azure cloud environment (what you are using, how you are using it).
2. Perform a systems Health Check of your organisation.
3. Workshops to better understand usability and user adoption.
4. All analysis will be done remotely.
5. Playback of findings on completion of Health Check.
6. Documented report with suggested enhancements / improvements.

Quick wins:

Some of the common quick wins we see across our clients are enhanced security, improved data, more meaningful reports and dashboards, optimised configuration for enhanced usability, increased productivity and increased ROI.

How much:

We provide a non-chargeable, no-commitment initial consultation and offer 3 tiered packages – Gold, Silver & Bronze – depending on the complexity of your Microsoft Azure cloud environment setup.

Ready to get the most out of your Microsoft Azure cloud environment.

Contact our experts to discover how a Health Check can assess, monitor, and enhance your business performance.
